

Data Sheet

CS 931 JF Belts with cloth backing for Stainless steel, Titanium

Applications

Stainless steel

Titanium

Properties

Bonding

Resin

agent

Grain

Ceramic aluminium

oxide

Coating

Semi-open

Backing

JF-cotton

Advantages: Special product with highly flexible backing for the processing of stainless steel and high alloy steel - Continuously aggressive grinding properties with high lifetime due to semi-open coated self-sharpening ceramic grain - Very good adaptability to radiuses and edges through highly flexible backing - The additional multibond provides a cool grinding in the processing of stainless steel and thus tempering colours are avoided
