

Data Sheet

NUD 500 High performance non-woven web wheels for Alloyed steels, High alloy steel, NF metals, Light metals, Chrome and nickel steels, Steel, Titanium

for pre-polishing

Applications

Alloyed steels

High alloy steel

NF metals

Light metals

Chrome and nickel steels

Steel

Titanium

Properties

Bonding

Resin

agent

Grain

SiC

Backing

Compressed non-woven web

layers, unitised

Advantages: For cleaning and pre-polishing surfaces - For smoothing weld seams - Fewer working steps - Precise cleaning, clearing and finishing of surfaces - Achieves an ultra-low scratch depth on the processed material

Diameter/mm	Width/mm	Bore/mm	Grade	Vmax m/s	Max. RPM	non-woven web, colour	Cat.number
